

CARE. TRUST. RESPONSIBILITY

EM-200/220 POS Base Experience Flexibility

The EM-200/220 POS Base is unique for the POS. With its compact design it can be used stationary and portable for various business environments.

It is multifunctional and can be placed at different spots (i.e. stadiums, events, trade fairs), without installing a whole cash-register at each place.

By taking the EM-200/220 out of the POS Base, it's a portable tablet PC for i.e. restaurant-orders, events, advertisements etc.

POS Base as multipurpose device can enhance the level of customer service and therefore increase the revenue.

This innovation can protect the investments, leads to more flexibility and dynamic.
